OSPCA is an independent study self-paced course, not a College Now course. Your college credit is determined by assessment of the course material by a JCCC professor. To earn college credit, complete the steps below.

1. APPLY for admission only one time regardless of how many semesters you take classes at JCCC. Go to admissions.jccc.edu to start your application. You can upload an unofficial copy of your high school transcript to your application. Consider downloading it before you start the application. For new students, to ensure your eligibility to enroll before the deadline, apply no later than the priority date listed on the calendar in the next page. When your application is processed, you will receive an email that includes your JCCC ID number and login information.

2. PLACEMENT into a College Algebra class. You can place into College Algebra if you have one of the following:

1) a grade of “B” or higher in the final semester of a high school course identified as equivalent to or higher than Algebra II and a high school unweighted GPA of 3.00 or higher
2) an ACT math score of 20 and a high school unweighted GPA of 3.00 or higher
3) an ACT math score of 21 or higher
4) an appropriate score on the Accuplacer math placement test

Go to jccc.edu/QuickStepPlus to submit your high school transcript and the ACT score report through the “Submit Documentation” button or Schedule Placement Test if you need to take the Accuplacer placement test with Testing Services.
