ClassLink is a safe, secure, Single Sign-On Platform allowing teachers and students to connect with e-Textbooks and other applications.

We are pleased to share that we have adopted ClassLink, a single sign-on platform that will allow teachers and students to use one username and password to access everything they need to provide faster, easier access to online resources being used in the classroom. *Devices supplied by Olathe Public Schools will already have the ClassLink Launchpad app or website installed, depending on the device.*

**Here are the steps your student uses to access ClassLink:**

ClassLink Website:

From a web browser, students can access ClassLink through the Olathe Public Schools ClassLink URL: https://launchpad.classlink.com/olatheusd233

For mobile devices, you will need to download the ClassLink Launchpad app. The app is available for download in both iTunes for Apple devices and Play Store for Android devices.

Search for **ClassLink Launchpad** app. After installing the app, search for Olathe the first time you access the app. The student will enter their OPS Network Username and Password to access ClassLink.

ClassLink Launchpad

Students will use their **OPS Network Username** and **Password** to access ClassLink.

Note: Parents are not able to access ClassLink, as they do not have accounts.
