Facts about NCAA sports

Does the NCAA award athletics scholarships?

Individual schools award athletics scholarships. Divisions I and II schools provide \$2.7 billion in athletics scholarships annually to more than 150,000 student-athletes. Division III schools, with more than 180,000 student-athletes, do not offer athletically related financial aid, but most student-athletes receive some form of academic grant or need-based scholarship.

Do many high school athletes earn athletics scholarships?

Very few, in fact. About 2 percent of high school athletes are awarded some form of athletics scholarship to compete in college.

Do NCAA student-athletes have difficulty meeting graduation requirements with the time demands of their sport? While competing in college does require strong time-management skills and some thoughtful planning with academic advisors, on average NCAA student-athletes graduate at a higher rate than the general student body.

Do many NCAA student-athletes go on to play professionally?

Fewer than 2 percent of NCAA student-athletes go on to be professional athletes. In reality, most student-athletes depend on academics to prepare them for life after college. Education is important. There are nearly half a million NCAA student-athletes, and most of them will go pro in something other than sports.

NAIA Eligibility – another great opportunity for student athletes

If you will graduate from high school this spring and enroll in college this coming fall, the requirements are simple. High school graduation, plus **two out of three** of these requirements

- 1. Achieve a minimum overall high school GPA of 2.0 on a 4.0 scale.**
- 2. Graduate in the top half of your high school class.**
- 3. Achieve the NAIA's minimum test score requirement:**
 - ▶ 16 composite score on the ACT**

Early Decisions for High School Seniors

Students who have completed their junior year of high school with an overall 3.00 GPA on a 4.00 scale OR students who have completed the first half of senior year with an overall 2.5 GPA on a 4.00 scale, plus meet the NAIA's minimum ACT or SAT test score requirements, may receive an eligibility decision prior to high school graduation. To receive an early decision, register with the NAIA Eligibility Center, have your high school send official transcripts to the Eligibility Center and contact ACT or SAT to have their test scores sent directly (the NAIA code is 9876 with ACT and SAT).

What About Division II, III or NAIA?
