This medical evaluation has been conducted under the guidelines established by K.S.A. 72-6266 as indicated below:
 Certification of health; form and contents; expense of obtaining; alternative certification. (a) Every board of education shall require
 all employees of the school district, who come in regular contact with the pupils of the school district, to submit a certification of
 health on a form prescribed by the secretary of health and environment and signed by a person licensed to practice medicine and
 surgery under the laws of any state, or by a person who is licensed as a physician assistant under the laws of this state when such
 person is working at the direction of or in collaboration with a person licensed to practice medicine and surgery, or by a person
 holding a license to practice as an advanced practice registered nurse under the laws of this state when such person is working at
 the direction of or in collaboration with a person licensed to practice medicine and surgery. The certification shall include a
 statement that there is no evidence of [a] physical condition that would conflict with the health, safety, or welfare of the pupils; and
 that freedom from tuberculosis has been established by chest x-ray or negative tuberculin skin test. If at any time there is
 reasonable cause to believe that any such employee of the school district is suffering from an illness detrimental to the health of the
 pupils, the school board may require a new certification of health. (5/23).
