Permission for Release of Immunization Information to Kansas Immunization Registry

The **Kansas Immunization Registry, KSWebIZ**, is a confidential computer system that collects and selectively discloses information to authorized persons about the vaccination history of persons in the State of Kansas.

The purpose of the Kansas Immunization Registry is to consolidate immunization information among health care professionals, assure adequate immunization levels, and to avoid unnecessary immunizations. Access is limited to individuals and entities that either provide immunization services or are required to ensure that persons are immunized. The privacy of participants and the confidentiality of information contained in the registry are protected at all times by all authorized users.

The Olathe School Nurses are users of KSWebIZ and with parent permission, enter student immunization records into the registry. Johnson County Health Department and many area health care providers also participate in KSWebIZ.

Participation in the program is completely voluntary and no other health or educational records will be shared other than school immunization records. If you would like your student’s immunization history to be entered into this system please sign below and return to the school nurse.

Name of Student _____

I give permission for the school immunization record to be released to the Kansas Immunization Program including the immunization registry for the purpose of assessment, reporting, and prevention of disease. I further understand that this consent will remain effective for a) the length of time my student is enrolled in Olathe District Schools or b) until it is revoked by a parent/guardian in writing.
