

Installing Printers – Desktop Computers & Laptop Carts

Install Print Assistant on a Desktop Computer or Laptop Cart

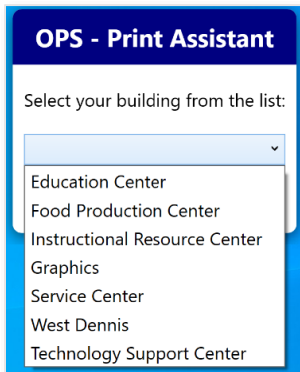

1. Launch **Print Assistant** from your desktop

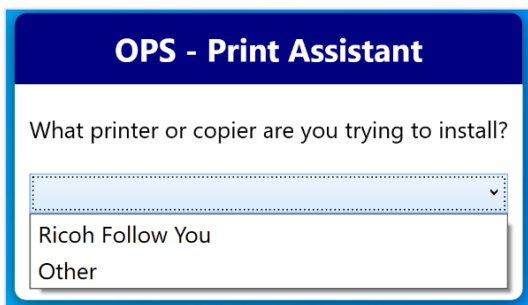

2. The screen will flash black then the program will launch. Select your location and click **OK**

3. Select your building and click **OK**

4. For copiers select "Ricoh Follow You" (You are done). For printers select other.

Installing Printers – Desktop Computers & Laptop Carts

5. This will open a window that will display your building's printers.
6. Double click on the printer you want to install.

Alternative Install Method

1. Click on the **File Explorer** icon on your Taskbar to open a File Explorer window

2. Copy/paste or type in the corresponding link below that matches your building location in the address bar of the File Explorer window and hit Enter. See below for our printer directory.

For example, for Arbor Creek you would copy/paste or type in <\\PRINT-SES> .

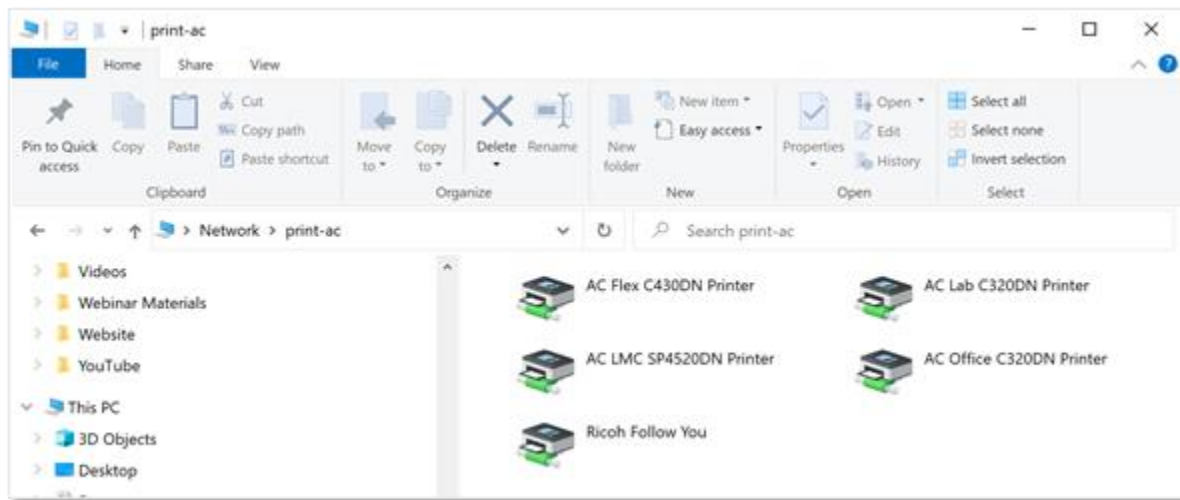

Please find the printer directory below to locate your printer.

Installing Printers – Desktop Computers & Laptop Carts

3. This will open a window that will display your building's printers.
4. Double click on the printer you want to install.

5. Click **Install Driver**
6. If you're prompted to allow "this device to make changes", click **Yes**.

7. The printer should now be installed and available to print.
