Olathe West High School
Energy & Sustainability

Who We Are:

The Green Tech Academy is one of the only programs in the nation where students can study renewable energy and sustainability in-depth at the high school level. Our students are everything from the next generation of wind turbine technicians to environmental engineers and sustainable farmers. Students in this four-year program:

- Discover how the use of energy by society affects every part of our lives
- Engage our community about the environment
- Pursue technological innovations that combat climate change

What We Do:

- Travel to wind farms, solar arrays, and hydroelectric power plants to learn about energy.
- Learn about renewable energy with hands-on equipment.
- Use one of the most sustainable high school buildings in the nation to learn about environmental design.
- Build our own wind turbines and electric vehicles for STEM competitions.
- Grow our own food.
- Manage energy usage at Olathe West and track our key sustainability metrics.
