4-Digit Number for School: 2787

1. IDENTIFY THE BARRIERS THAT MUST BE OVERCOME FOR EACH STUDENT TO ACHIEVE GRADE LEVEL PROFICIENCY ON STATE ASSESSMENTS:

There are always a number of challenges that should be considered when evaluating student success in a district. Some of the key barriers that impact this school include, but are not limited to:

- Special Education funding shortfall has limited supports of our highest need students.
- An increasing level of social emotional challenges and needs of students.
- Increased percentage/number of students meeting one or more at-risk criteria.

2. IDENTIFY THE BUDGET ACTIONS THAT SHOULD BE TAKEN TO ADDRESS AND REMOVE THOSE BARRIERS:

Given an appropriate level of funding for both general education and special education, there are a number of budget actions we could take to remove some barriers. Some of them include:

- Maintain low teacher/pupil ratio for greater individualized instruction.
- Increase paraeducator support in special education classrooms.
- Increased funding and time for staff development.

3. IDENTIFY THE AMOUNT OF TIME THE BOARD ESTIMATES IT WILL TAKE FOR EACH STUDENT TO ACHIEVE GRADE LEVEL PROFICIENCY ON THE STATE ASSESSMENTS IF THE BUDGET ACTIONS WOULD BE IMPLEMENTED:

We measure growth each year and document in our KESA plans our success on a variety of student success factors. We emphasize growth and strive to lead the world in the success of each student. Although we do this and are proud of the work we do, many factors make it impossible to estimate a time that every student will achieve a definition of grade level proficiency. Such factors include:

- The current and future levels of school funding have a significant impact on student learning and any increases or decreases have an affect on student success. Any changes to those funding levels, in either direction, impact the ability of students to meet proficiency criteria.
- While assessment scores are one measure, our school does not believe that student assessment scores should be the sole measure of student proficiency.
